

MANUFACTURERS OF REUSABLE
& SINGLE USE INSTRUMENTS

YOU CAN TRUST YOUR INSTRUMENT

WE CARE YOUR LIFE WITH

Message from Partners

We offer a full range of Surgical and Dental Instruments specially tailored to the need of our valued client's innovative thinking, professional approach and years of experience has enabled us to put all the sectors of production together like a jigsaw

For more than three decades, highly skilled and experienced craftsmen engaged to produce and serve quality Surgical and Dental Instruments at competitive prices have acquired good reputation across the world enrolling big names of the field as their satisfied associates.

M. Rasheed

M. Rafique

Our Vision

Focusing on ultimate leadership and serving humanity.

Our Mission

We will create a new concept of market leadership. We are serving humanity with high quality, safe and durable products.

We will enhance this vision by giving exceptional after sales services and support to our clients.

We will serve the mankind aiming to upgrade health care services and providing patients and doctors with latest and highest medical services quality.

Our Goals

Producing an internationally quality standard instruments.

Improve our products quality and after sales services to meet the international standards.

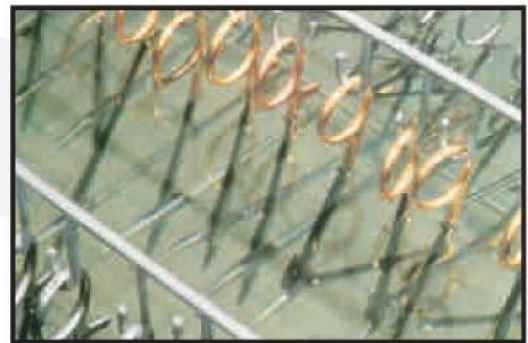

Exceed our client's expectation and desire.

Proving our credibility and reliability related to all technical as well as ethical aspects.

Production

We produce all kinds of operative line of Surgical, Dental, Veterinary, Beauty and TC Instruments as well as Hollow ware.

Our ability to supply any instrument according to any international reference catalogue makes us unique service provider

Different Kinds of Finishing

Standard Finish

Instruments with their real original stainless steel image supported by a satin/dull finish with minimal light reflection. Those instruments are the standard used by all surgeons everywhere. You can easily find different varieties and different specialties available on our stock.

Mirror Finish

Standard finish made of high quality stainless steel provided in a shiny mirror finish. Those instruments are made upon customer request to have this unique image and shine of silver. It gives the instrument a shape of dignity.

Black Finish

Black instruments are recommended for use in Micro Surgeries, under microscope, as well as in large operating fields using large instruments such as big retractor. The black colour finish is very effective in preventing light reflection during surgeries and making them convenient for surgeons. Surgeons, who have used such instruments, expressed their feeling with comfort and relaxation after surgery. It is important to insure the stability of the black colour with frequent use of autoclaves and sterilization process.

Extra Finish Line

In this way we can satisfy our customer who would like to make special marks/logos on their instruments. Upon special request we can make one instrument with two types of finishes. In this way, one part of the instrument will be in mirror finish and the other part will be in satin, black or gold finish.

Product Range

Hollow ware

A big variety of hollow wares (sterilization boxes, trays, kidney dishes and bowls) with different varieties in sizes and shapes.

Dental Instruments

Titanium and aluminum instruments are also available on request.

Product Range

Surgical Instruments

Ligatures, catheters and tapes handling, during surgical procedures are a delicate art. In most of the time, it needs assistant with three-dimensional orientation.

TC Instruments

In Surgical and Dental Instruments.

Beauty Care Instruments

A huge range of beauty care instruments include, Barber hair dressing scissors, nail cutters, tweezers, pushers, extractors, etc. with different varieties in sizes and shapes.
